

## Biomec Plus Advanced Filter Media

- 1025m<sup>2</sup> per m<sup>3</sup> protected surface area
- Class leading total surface area 1350m<sup>2</sup> per m<sup>3</sup>
- Minerals, magnesium, calcium, salt and enzymes incorporated into each piece during extrusion process
- Filters mature faster with Biomec Plus
- Structure of Biomec Plus allows a stable bio-film to form
- Reduces back pressure on pumps for improved efficiency
- Manufactured in UK.

Biomec Plus: Technical data		Biomec Plus: 50L bag	
Diameter	10.2mm	Weight	9kg
Length	8mm	Dimensions	840 x 540 x 100mm
Total surface area	1350 m <sup>2</sup> /m <sup>3</sup>		
Protected surface area	1025 m <sup>2</sup> /m <sup>3</sup>		

 **MANUFACTURED IN THE UK**
